

# Broadway 65mm

## A Large Format Modern Paver

Broadway is a large profile paver suited for nearly any application. This 65mm thick paver is especially designed for residential projects that don't require the thickness of a commercial location. This dry cast product is made by compressing a dry concrete mix then baking it to cure. Its sleek and contemporary design lends itself to beautiful paths and patios. The 600 x 600 paver is also an excellent choice for rooftop applications.

## INSTALLATION NOTES

Barkman recommends the use of polymeric sand for commercial applications. A plate compactor should be used over the entire surface following installation.

For more in depth installation guides for specific products, visit [BarkmanConcrete.com](http://BarkmanConcrete.com).
