Stackstone Wall

Precise, Rugged Sensibility

StackStone® provides a clean yet decorative touch to any project. No matter how simple or complex your garden wall project is, StackStone® will always be up for the task.

Stackstone is designed with the do-it-yourself landscaper in mind. A tapered profile and tongue and groove design ensure quick and easy installation for both straight and curved walls.

This wall system produces a zero set back wall with textured, natural-looking surfaces at the front and back. Zero set back means that if no cutting is required on the first layer, no cutting will be necessary on subsequent layers.

Garden Walls Grand Walls

SIZES (H X W X D)

Standard
102 x 203/152 x 203 mm
4 x 8/6 x 8 in

Coping
102 x 203/152 x 203 mm
4 x 8/6 x 8 in

Advanced Corner
102 x 203/165 x 203 mm
4 x 11/8 x 8 in

COLOURS

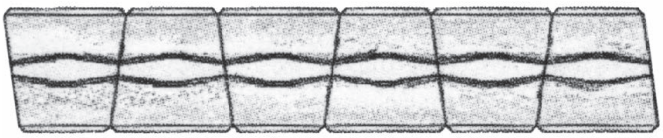
Antique Brown

Charcoal

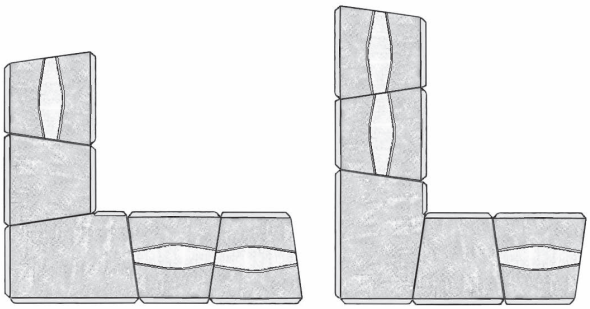
Desert Buff

Sierra Grey

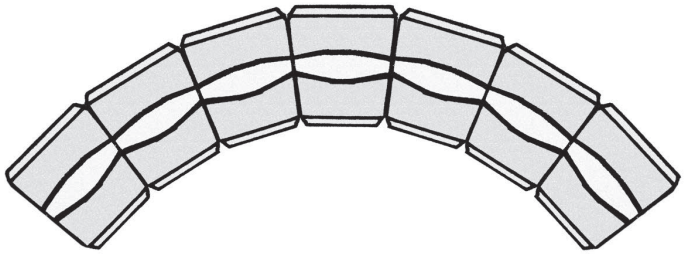
CONSTRUCTION DETAILS



To construct a solid wall, the larger faces of adjacent units should be aligned on opposite sides of the wall. This creates a straight wall with a continuous stone face on both sides.



Corners are made using Advanced Corner units. Arrange these units as shown, making sure to alternate patters of standard and coping units with odd and even courses.



The minimum radius for a curve using Stackstone® is 29” outside and 21” inside. For inside curves, either the larger or smaller face can be used for the face of the wall. For outside curves, only the larger face can be used for the face of the wall (23 pieces will make a 42” inside diameter circle).
