

Arborwood Slabs

A Dry Cast Slab with a Wet Cast Look

Arborwood recreates the look of Barkman's popular Bridgewood and Terra Nova wet cast slabs using the dry cast manufacturing process. The result is a more economical, wood textured slab modelled after rough wood planks. Unlike traditional wood surfaces, Arborwood will never rot or warp and is easier to care for over time. Arborwood is ideal for residential applications like pool decks, paths and patios.

SIZES (L X W X H)

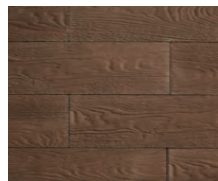

800 x 200 x 60 mm
31.5 x 7.87 x 2.36 in

800 x 200 x 60 mm
31.5 x 7.87 x 2.36 in

COLOURS

Kodiak Brown

Timber Wolf

Pools

Paths

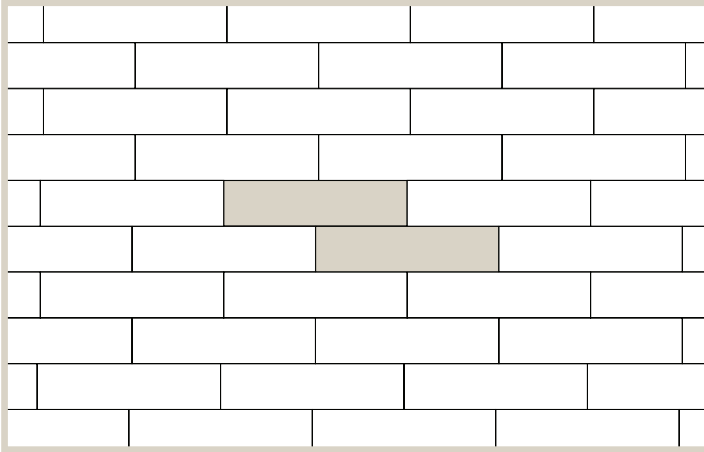

Grand Patios

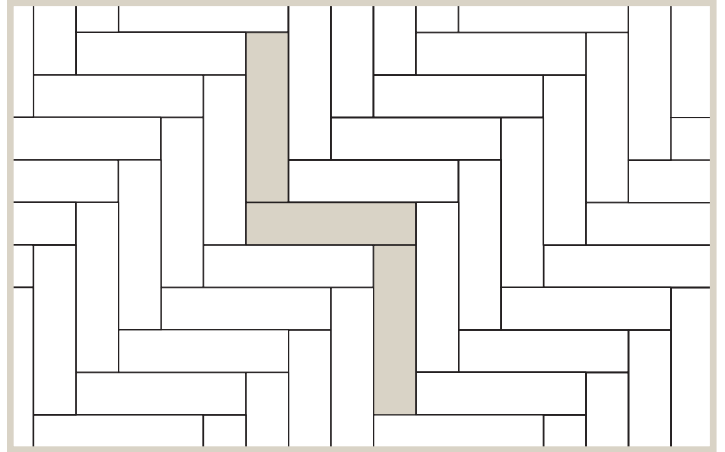

Patios

PATTERNS

Running Bond

Herringbone

INSTALLATION NOTES

Barkman recommends the use of polymeric sand. The use of a Paver Saver Mat between the paver surface and plate compactor is recommended. The compactor should be used at half speed.
