

Pisa2® Wall

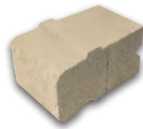

Clean, Classic Look

Define your backyard with the distinct edge of our Pisa2 walls. It has a split face look that creates a clean, classic appearance and a tapered design that allows versatility for straight or curved walls. It allows for gravity walls up to 4 feet in height and engineered walls upwards of 30 feet high.

A tapered profile and split-key tongue and groove design ensure quick and easy installation for both straight and curved walls.

CONSTRUCTION DETAILS

For outside corners, use corner units, available in both rights and lefts. These are designed with a split face on two adjacent sides. Do not cut corner units. Instead cut standard units to fit corner unit. Install corners on top of each other reversing rights to left on preceding courses. Chisel 4" of the tongue off adjacent unit to allow next corner unit to rest flat.

Use Standard units for risers. Use Coping units for step treads.
