Quarry Stone Wall

The Heart of any Landscape

Quarry Stone delivers the well-worn appearance of a classic wall or structural accent that's been a part of the landscape forever. Each face features a tumbled finish making Quarry Stone particularly suited for freestanding walls or other applications in which all sides will be seen. Understated and functional, Quarry Stone comes in a variety of colors that can be interchanged to create a timeless addition to any landscape.

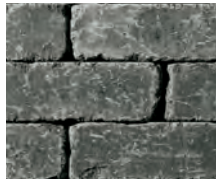

Quarry Stone is also available in a 12" untumbled version.

SIZES (H X W X D)

Standard
102 x 305 x 203 mm
4 x 12 x 8 in

COLOURS

Charcoal

Desert Buff

Antique Brown

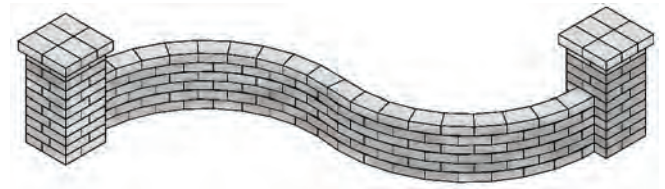

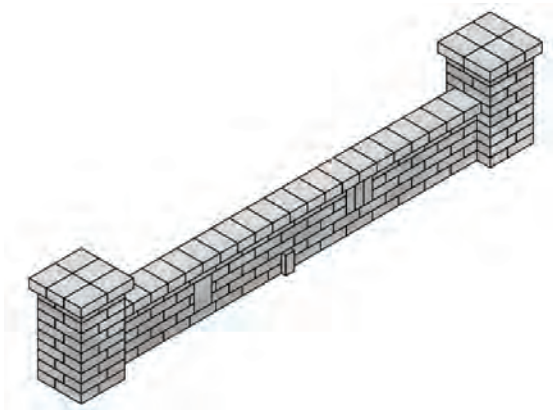

Sierra Grey

Garden Walls

CONSTRUCTION DETAILS

To construct a straight wall, use the standard Quarry Stone units. All visible faces of each unit feature the same finish. This makes Quarry Stone easy to use. If you need to cut a unit, keep the cut side hidden. Keeping the manufactured faces visible will ensure a consistent finish.

Tapered units used in combination with standard units will enable you to construct a curved wall. Use standard units to construct a pillar. For additional strength, it is recommended that you use masonry glue for each layer. Standard units may be used to construct a pillar cap. Alternatively, a pillar may be topped with a Barkman pre-fabricated pillar cap.

INSTALLATION NOTES

Barkman recommends going a maximum of 2' high. 8" radius unit-minimum inside diameter of 50". 12" radius / 12" Standard minimum radius 291.5"
