

Architextures Wall

The Modern Evolution

Architextures is the latest large format, contemporary retaining wall from Barkman. It is built to handle the most demanding landscaping challenges, and designed to fit seamlessly into most modern spaces.

Architextures features 5000 psi compressive strength for superior freeze-thaw durability. A solid body, eliminates the need to fill the block core with gravel. An integrated tongue and groove connection, ensure blocks will stay in place and perfect height tolerance, eliminates the need for constant shimming.

Blocks can be installed by hand or with a clamp.
