Boardwalk Paver

Linear Elegance for Inspiring Designs

Boardwalk is a eight paver system with a modern, linear look. Boardwalk is an excellent option for drawing the eye towards the focal point in any landscape. At 3 inches thick, it's perfect for high traffic areas including driveways, patios, and plazas. For quick installation, Boardwalk can be machine installed. Its wide spacers also allow it to be used as a permeable paver in locations that require good drainage.

INSTALLATION NOTES

Barkman recommends the use of polymeric sand for commercial applications. A plate compactor should be used over the entire surface following installation. Each bundle contains 76 sq. ft. between the eight sizes. Recommended to use Paver Saver Mat (103164) between the plate compactor and surface. Boardwalk is compatible with some machine paver laying systems. Boardwalk

can also be installed as a permeable paver. Available to order in full pallets only. Recommended to use Polybind Complete G2 Polymeric Sand for commercial applications if not using for permeable. Product designed to be installed in a running bond pattern. For more in depth installation guides for specific products, visit BarkmanConcrete.com.
