

Exceptional beauty,
written in stone.

Broadway Premium Colours

Produced in our cutting-edge Hess plant, we've added 2 new colours to our Broadway family, Quartz & Amber. These premium colours use Barkman's latest globally-patented technology. They feature a decorative granite pattern that is visually stunning.

An Innovative Hardscapes Manufacturing Technology

While our state-of-the-art plant has allowed us to achieve brilliant colours with streaking technology featured in colours like, Sterling, Flint and Sandstone, this latest technology allows for a speckled colour which is currently only available in our Broadway family of products.

Further advancements have also been made specifically to these colours. Quartz & Amber feature a high definition colour and an enhanced smooth surface finish that does not easily allow for dirt, silts, or debris to compromise its visual appeal. This makes Quartz & Amber perfectly suited to both residential and commercial applications.
